

The Hughston Foundation, Inc.

From start to finish we can help you with research, writing, and imagery for your projects, as well as planning and implementing conferences, labs, and meetings.

Research

- industry-sponsored research and clinical trials
- research for new surgical and nonsurgical treatment protocols
- fellow, resident, and student clinical research
- patient records searches by ID or CPT coding
- individual research lab sessions
- assistance with Hughston Institutional Review Board submissions
- access to orthopaedic and sports medicine textbooks and journals
- reference and bibliographic services
- PubMed and literature searches
- interlibrary loan capabilities

Writing/editing

- book chapters and manuscripts
- journal abstracts and articles
- communicating with publishers
- research papers
- scripts, talks, and speeches
- text for PowerPoint presentations
- teaching aids
- brochures
- newsletters
- patient education material
- CVs
- bios
- press releases
- copy for advertisements and websites

Imagery/video

- original medical illustrations
- 2D- and 3D-animations
- studio portraits
- digital photography
- surgical documentation
- pre- and post-op photos and videos
- event documentation
- PowerPoint images or illustrated presentations
- patient testimonials
- filming and video editing services
- filming services on location or at Foundation Studio
- photography or videography within the wet/dry lab
- access to video library of surgical footage
- DVD authoring capabilities
- patient education materials

Conferences, labs, and meetings

- conference organization
- accommodations and staff for meetings, conferences, and educational programs
- document submission for continuing education credits
- individual laboratory practice sessions
- lab and/or classroom space for product demonstrations or procedure training
