

MAGNETIC RESONANCE IMAGING (MRI)

PATIENT NOTIFICATION

This letter provides important information about MRI referrals. Please be advised that you may choose to have your MRI performed at any one of the following locations in your area including, but not limited to:

Hughston Diagnostics – Columbus
6262 Veterans Parkway
Columbus, GA 31909
706-324-6661
800-331-2910

Jack Hughston Memorial Hospital
4401 Riverchase Drive
Phenix City, AL 36867
334-732-3000

Valdosta MRI, Inc.
4274 N. Valdosta Road
Valdosta, GA 31602
229-242-1040

Open MRI of Valdosta Georgia
3520 N. Crossing Circle
Valdosta, GA 31602
229-242-8394

SGMC Imaging Center
2409 N. Patterson Street
Valdosta, GA 31602
229-293-3600

Hughston Valdosta MRI utilizes an Esaote S-Scan MRI machine, which is accredited with the American College of Radiology, to perform all types of orthopaedic MRI exams.

Magnetic Resonance Imaging (MRI) uses a strong magnetic field and radio waves to create detailed images of the inside of the body. MRI does not use ionizing radiation, such as X-rays or CT scans. Before an MRI examination, the technologist will review your medical history and ask safety screening questions to determine whether MRI is appropriate for you. Patients should inform the MRI staff of any implanted medical devices, metal fragments, prior surgeries, or other conditions that may affect MRI safety.

All of our images are read by musculoskeletal specialty-trained radiologists. Magnetic Resonance Imaging is a type of scan that our physicians schedule when soft tissue, which cannot be seen as well on traditional radiographs, needs to be visualized. MRI is a non-invasive procedure, which takes about 30 to 45 minutes to complete and causes no known side effects.

Hughston Valdosta MRI
Hours: 8:00 AM - 5:00 PM Mon - Thurs
8:00 AM - 3:00 PM Fridays
Phone: 800-331-2910
Fax: 706-221-8393
